Shreyas Motupalli

(610)-412-6299 | smotupalli0307@gmail.com | linkedin.com/in/shreyas-motupalli | Boston, MA

Available January 2027 – June 2027

Education

Northeastern University Boston, MA

Candidate for Bachelor of Science Degree in Computer Science *Expected Graduation – May 2029*

Current Cumulative GPA: 3.848/4.0

Relevant Coursework: Program Design and Implementation 1 & 2, Algorithms and Data, Calculus 2 for Science and Engineering, Mathematical Foundations of Artificial Intelligence, Game Programming 1, Discrete Structures, Intro to Math Reasoning, Foundations of Cybersecurity

Honors & Activities: Dean's List Fall 2025 & Spring 2026, Huskiers and Outing Club, Recreational Climbing Club, Esports Club, Game Development Club

Projects

Crosshair Image Matching Website September 2026 – Present

- Designed and deployed a Next.js and React web application on Vercel, utilizing REST API calls and featuring a real-time drawing pad using the HTML5 Canvas API and JavaScript drawing libraries
- Created a Python image-matching service that compares a user-drawn picture against 100+ reference crosshair images stored in AWS to return the closest match, strengthening understanding of cloud storage and OpenCV

Game Development May 2024 – Present

- Built a 3D feature-rich game in Unity that includes NPC pathfinding AI, animation states, and custom-built models, further mastering game development tools and languages like Blender and C#

Harvard University's CS50x Course June 2026 – October 2026

- Completed problem sets in C, Python, and SQL, building proficiency in data structures, memory management, and web development
- Applied core programming concepts such as recursion, search/sort algorithms, and hash tables to better design efficient and readable code

CookYourBooks - Recipe Management Application January 2026 – May 2026

- Developed a Java recipe management system with a team of 5 that includes ingredient tracking, measurement conversion, and recipe filtering through leveraging consistent communication and proper documentation
- Implemented object-oriented design patterns including the Builder, Decorator, MVVM, and Strategy Patterns and wrote unit, integration, and end-to-end tests to verify application behavior
- Integrated persistent data storage and manipulation using JSON serialization through the Jackson library

Experience

Retail Work Team Member May 2026 – August 2026

Rally House *Exton, PA*

- Multi-tasked across a 16,000-square-foot store by flexing between recovering store sections, operating the front counter, managing dressing rooms, handling packages, checking out online orders, and closing the store
- Assisted shoppers in finding requested merchandise and offering detailed item recommendations, easing workload for team members during high-traffic retail hours and bolstering the store's 4.6-star rating
- Recovered 30+ sections, 500+ fixtures to uphold quality store appearance and prevent deferred maintenance

Engineering Volunteer Counselor March 2022 – June 2024

Ricketts Center *Pottstown, PA*

- Led board game activities for up to 35+ children ranging from 6 – 18 as part of local outreach program helping balance entertainment with education, honing leadership and problem-solving skills

Skills & Interests

Programming/Web: Java, Python, HTML/CSS, C, SQL, JavaScript, GDScript, C#
Frameworks/Libraries: JavaFX, NumPy, Pandas, SymPy, Next.js, React, Matplotlib, scikit-learn, TensorFlow
Developer Tools: Git, GitHub, VS Code, Godot, Unity, Linux, AWS, Rider, Vercel, Visual Studio, Docker
Productivity & Design Tools: Microsoft Office, Google Workspace, DaVinci Resolve, Canva, Discord, Slack, Blender
Interests: Software, Data Science, Graphics, Game Development, AI
